1.0 General Overview

1.1 Introduction

In Northern Ireland, all tourist accommodation must be certified by Tourism Northern Ireland (Tourism NI) i.e. inspected by an officer of Tourism NI to ensure compliance with minimum standards set by Tourism (Northern Ireland) Order 1992 and can only trade when issued with a certificate. Details of minimum criteria are available to view on tourismni.com/accommodation.

In addition to the requirements to meet minimum standards set by legislation, accommodation in Northern Ireland can choose to be graded by Tourism NI according to pre-set quality standards. This booklet describes the requirements for the Quality Standards for Self Catering Accommodation in Northern Ireland.

1.1.1 Self Catering

The definition of SELF CATERING is as follows:

A property which is let normally on a weekly basis to tenants, which requires no service elements during the time of the guests’ stay.

1.1.2 Common Standards

VisitEngland, VisitScotland, Wales Tourist Board, Tourism Northern Ireland, the AA, with the support of the Government, work together to agree, support and develop common standards for assessing the quality of self catering accommodation in the United Kingdom.

Each organisation is using these common standard requirements to determine the star rating for your establishment. Your rating will be the same whichever organisation you choose to carry out your assessment. You can, of course, choose to be assessed by more than one organisation and each organisation will award you the same star rating. Additional marketing awards for food, comfort and service etc. from the different organisations, however, are not part of this agreement.

1.1.3 The Requirements

We have based the requirements for the star ratings on the existing standards of all the organisations plus extensive research into the needs and expectations of visitors. We have also consulted widely with the hospitality industry.

The feedback we received from the industry shows strong support for a common quality standard for self catering accommodation throughout the countries where we operate the schemes. Our aim for this revised common quality standard is to work continually with the industry and to strive together to raise quality standards in line with the ever-evolving expectations of consumers.

1.1.4 Dispensations

Dispensations for certain individual requirements within the quality standards may be given as long as all the remaining requirements and quality levels for that rating are met or exceeded. This flexibility will be on a case-by-case basis and will have to be agreed by the Standards Review Group (SRG), which represents all the five organisations who operate the Common Standards - AA, VisitEngland, VisitScotland, Wales Tourist Board and Tourism Northern Ireland. Any exceptions will need a proportional increase in quality in other areas to compensate for the area where an exception is sought.
2.0 General Requirements

Proprietors will be asked to maintain Public Liability Insurance Cover and to provide a signed confirmation, at application and renewal of participation, that the above requirements are being fulfilled.

2.1.1 General Miscellaneous

In assessing the acceptability of ‘enclosed’ floor area available, assessors will take account of usable space around furnishings and fittings. It is unlikely that the minimum requirements will be met where accommodation is less than the following:

- 18.60 sq.m (200 sq. ft.) for a 2 person unit plus 7.40 sq.m (80 sq.ft.) for each additional person normally accommodated.

Enclosed floor area includes living, sleeping, cooking and bathroom areas. Consideration should be given to freedom of movement, the ceiling height for the major part of the room to be sufficient for a person of 183 cm (6 ft) to move around without stooping. Sloping eaves and roofs are acceptable providing these do not restrict guests’ movements to an unacceptable degree.

- Additionally, for a Star Level higher than the base level of One Star, floor area available will need to be greater with significantly more usable space around furnishings and fittings.
- There must be reasonable space for movement in bedrooms/sleeping and living room areas and for easy access to beds, doors and drawers. Doors and drawers to be fully openable. Account should be taken of space needed for convertibles, e.g. bed settees.
- All fixtures, furniture, furnishings, crockery and cutlery to be adequate for the maximum number of occupants, including any extra sleeping accommodation.

2.1.2 Additional requirements to meet:

**Five Star**

No coin meters or smart card systems for fuel payment. However meter readings are acceptable.

An additional five items from the following list should be provided:

- Tumble drier
- Telephone capable of making and receiving calls (prepaid credit mobile acceptable)

• Electricity should be available (not necessarily mains supply). Where it is not, this must be stated. Voltage to be stated if not on mains.

• Where electricity is available, an adequate number of power sockets to be provided, commensurate with the number of electrical appliances provided.

• Some form of emergency lighting to be available, e.g. torch or night-lights. Candles are not acceptable.

2.2 Cleanliness

• Cleanliness is of paramount importance to guests, so a high standard of cleanliness must be achieved and maintained throughout the property. Particular attention must be given to kitchens, bathrooms, shower rooms and toilets and items involving direct contact for guests, such as bedding, linen, towels, baths, showers, washbasins, WCs, flooring, seating, crockery, cutlery, glassware, kitchen utensils and equipment.

• It is the proprietor’s responsibility to ensure that all properties are thoroughly cleaned throughout, before each new let, irrespective of whether the guests have cleaned it prior to departure. Any broken or damaged items should be replaced.

2.3.1 Appearance of Buildings
