# Training Format

**Webinar 2: AI Written Content for Tourism Marketing**
Wednesday 29th January 10:00 – 11:00

**Webinar 3: AI Visual Design for Tourism Branding**
Wednesday 12th February 10:00 – 11:00

**Webinar 4: AI Video creation for Tourism Marketing**
Wednesday 26th February 10:00 – 11:00

**Webinar 5: AI for Data Analytics**
Wednesday 12th March 10:00 – 11:00

**TED** | Tourism Enterprise Development Programme

# What is AI?

Artificial Intelligence (AI) refers to computer systems capable of performing tasks that typically require human intelligence. For small businesses, AI can be thought of as smart software that can:

- Automate repetitive tasks

- Analyse large amounts of data quickly

- Make predictions and recommendations

- Understand and respond to human language
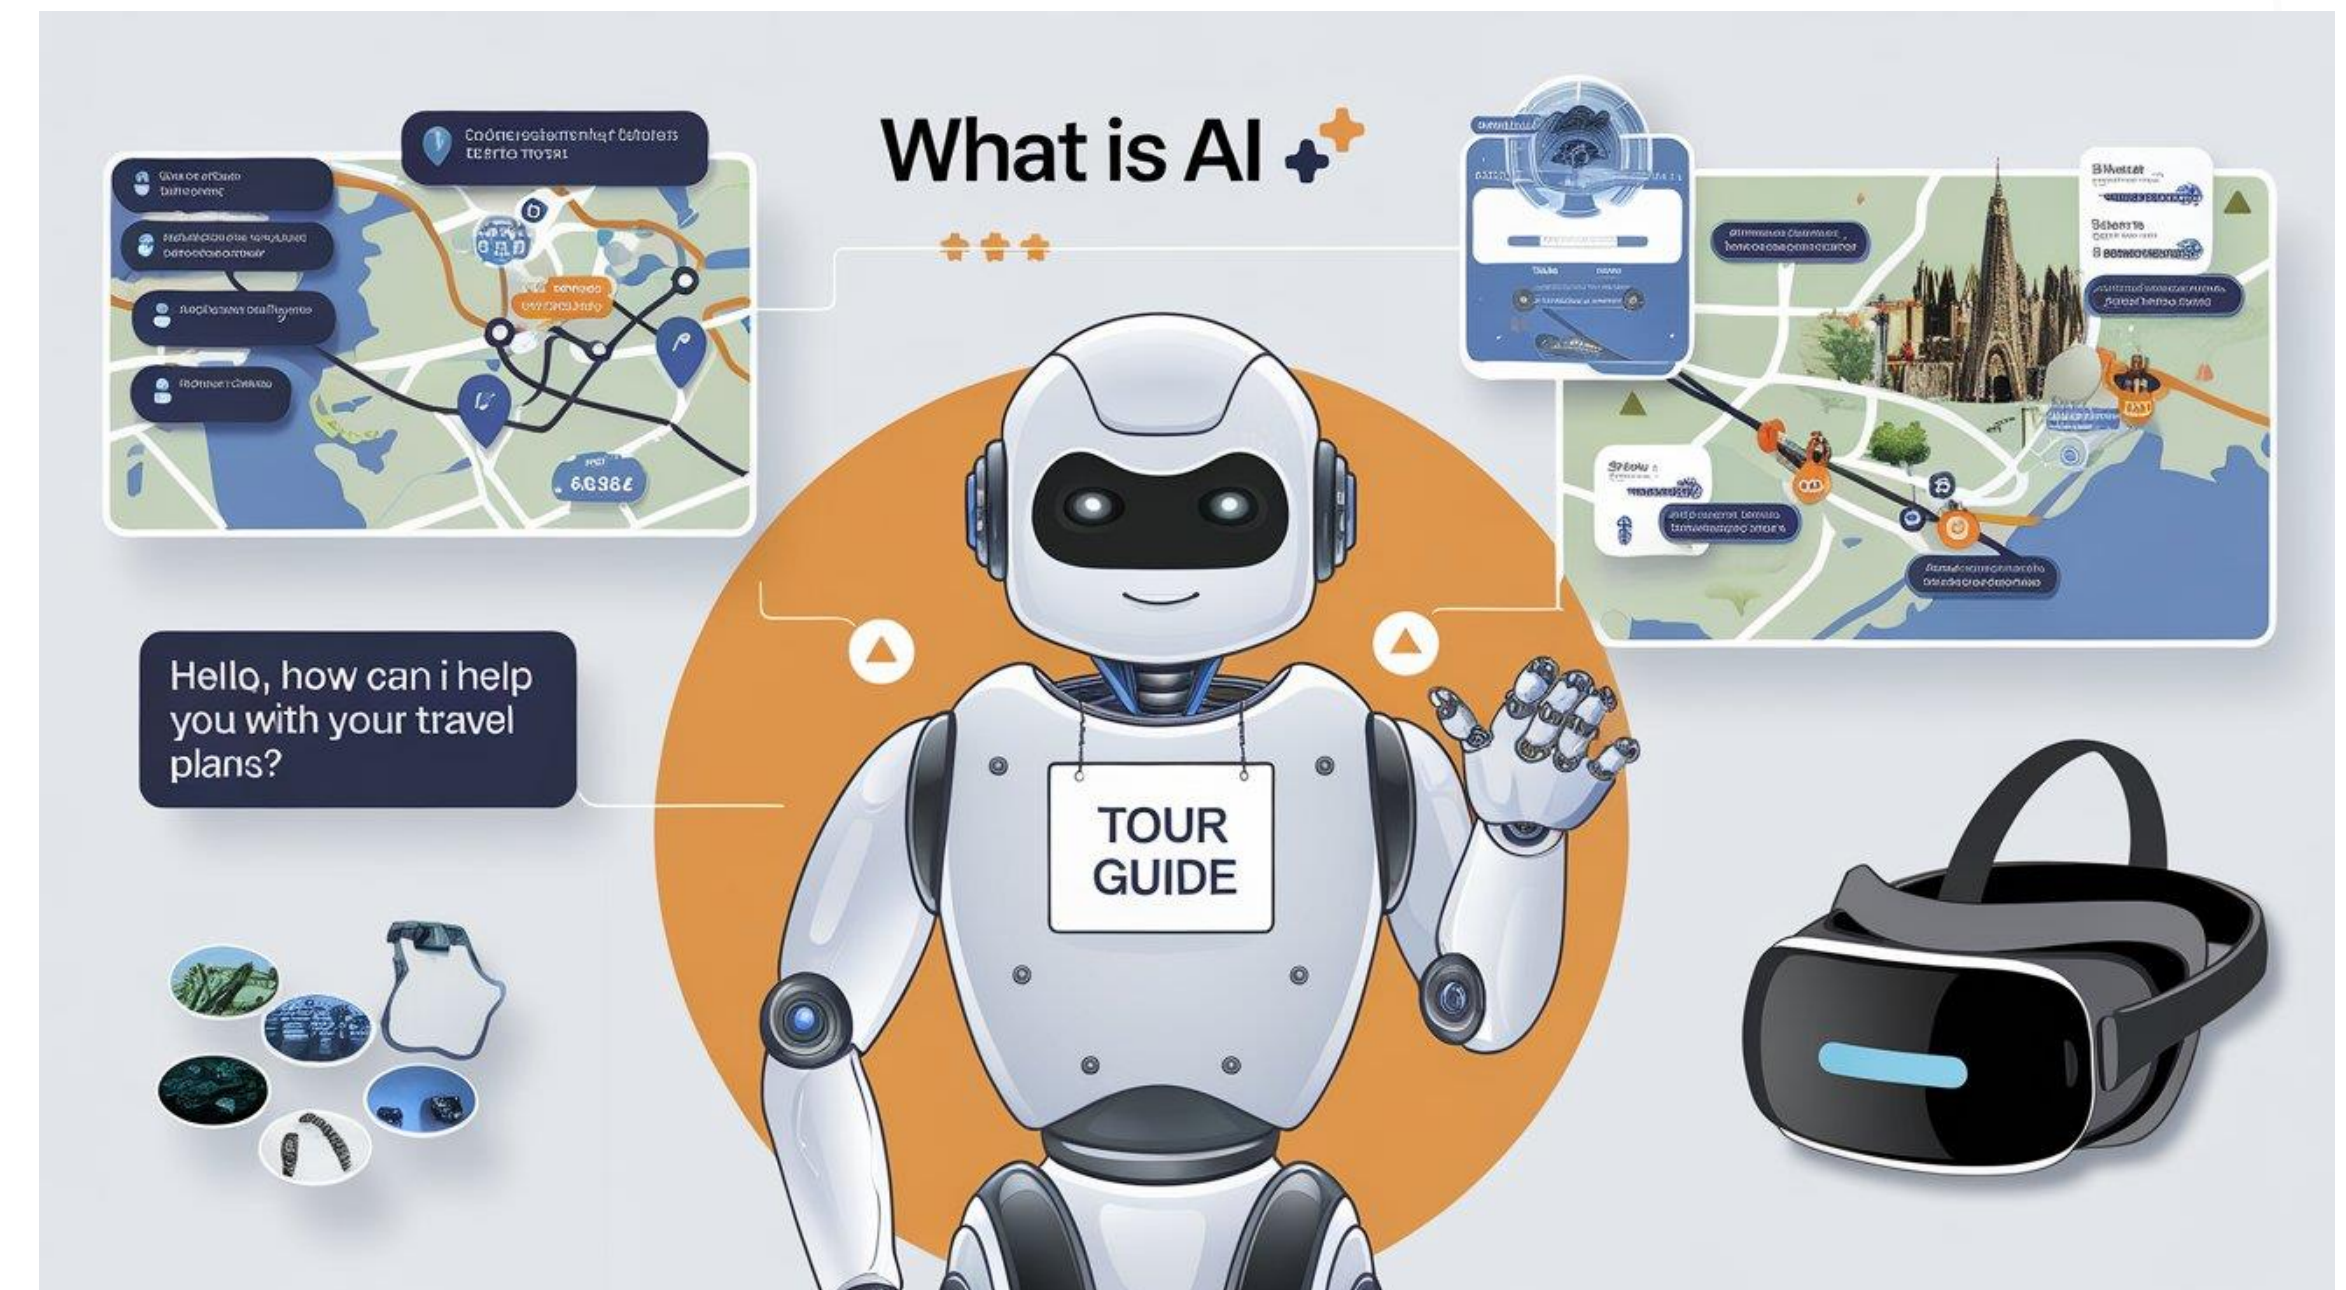

# It will be invisible to most

# Customers are using AI today
# Importance of AI in Tourism

- Enhanced efficiency and cost savings
- Improved customer experience
- Data-driven insights
- Competitive advantage
- Enhanced marketing and sales
- Operational improvements
- Innovation in travel planning

# Current State of AI in Tourism

## AI in Tourism: Current Adoption

- 11% of travel agencies and tour operators use at least one AI technology [10]

- 4% adoption rate in accommodation and food services [10]

- 83% of travel companies believe AI is essential for innovation [23]

- AI-driven personalisation increases customer satisfaction by 20% [23]

**Challenges and Considerations**
- Data privacy and security concerns
- Need for AI-skilled workforce in the tourism sector
- Balancing AI automation with human touch
- Ensuring ethical use of AI technologies

# Get started

# Evaluate your business goals:
## What challenges can AI solve for you?

**Customer Experience**

- Do you want to offer personalised travel recommendations?
- Are customers experiencing delays in getting responses to their queries?
- Could AI chatbots provide 24/7 customer support?

**Marketing & Outreach**

- Are your marketing campaigns targeted effectively to specific audiences?
- Do you want to automate social media management or content generation?
- Can predictive analytics improve your campaign performance?

**Operational Efficiency**

- Are repetitive administrative tasks consuming too much time?
- Are there inefficiencies in booking or inventory management processes?

**TED** | Tourism Enterprise Development Programme

# Evaluate your business goals:
## What challenges can AI solve for you?

**Innovation & Differentiation**
- Are you looking to add innovative experiences like AI-powered trip planners?
- Do you want to use AI to differentiate yourself from competitors?

**Ethical and Practical Considerations**
- Are you prepared to address data privacy concerns?
- Do you have staff who can champion the use of AI tools?
- Can you balance automation with a human touch in customer interactions?
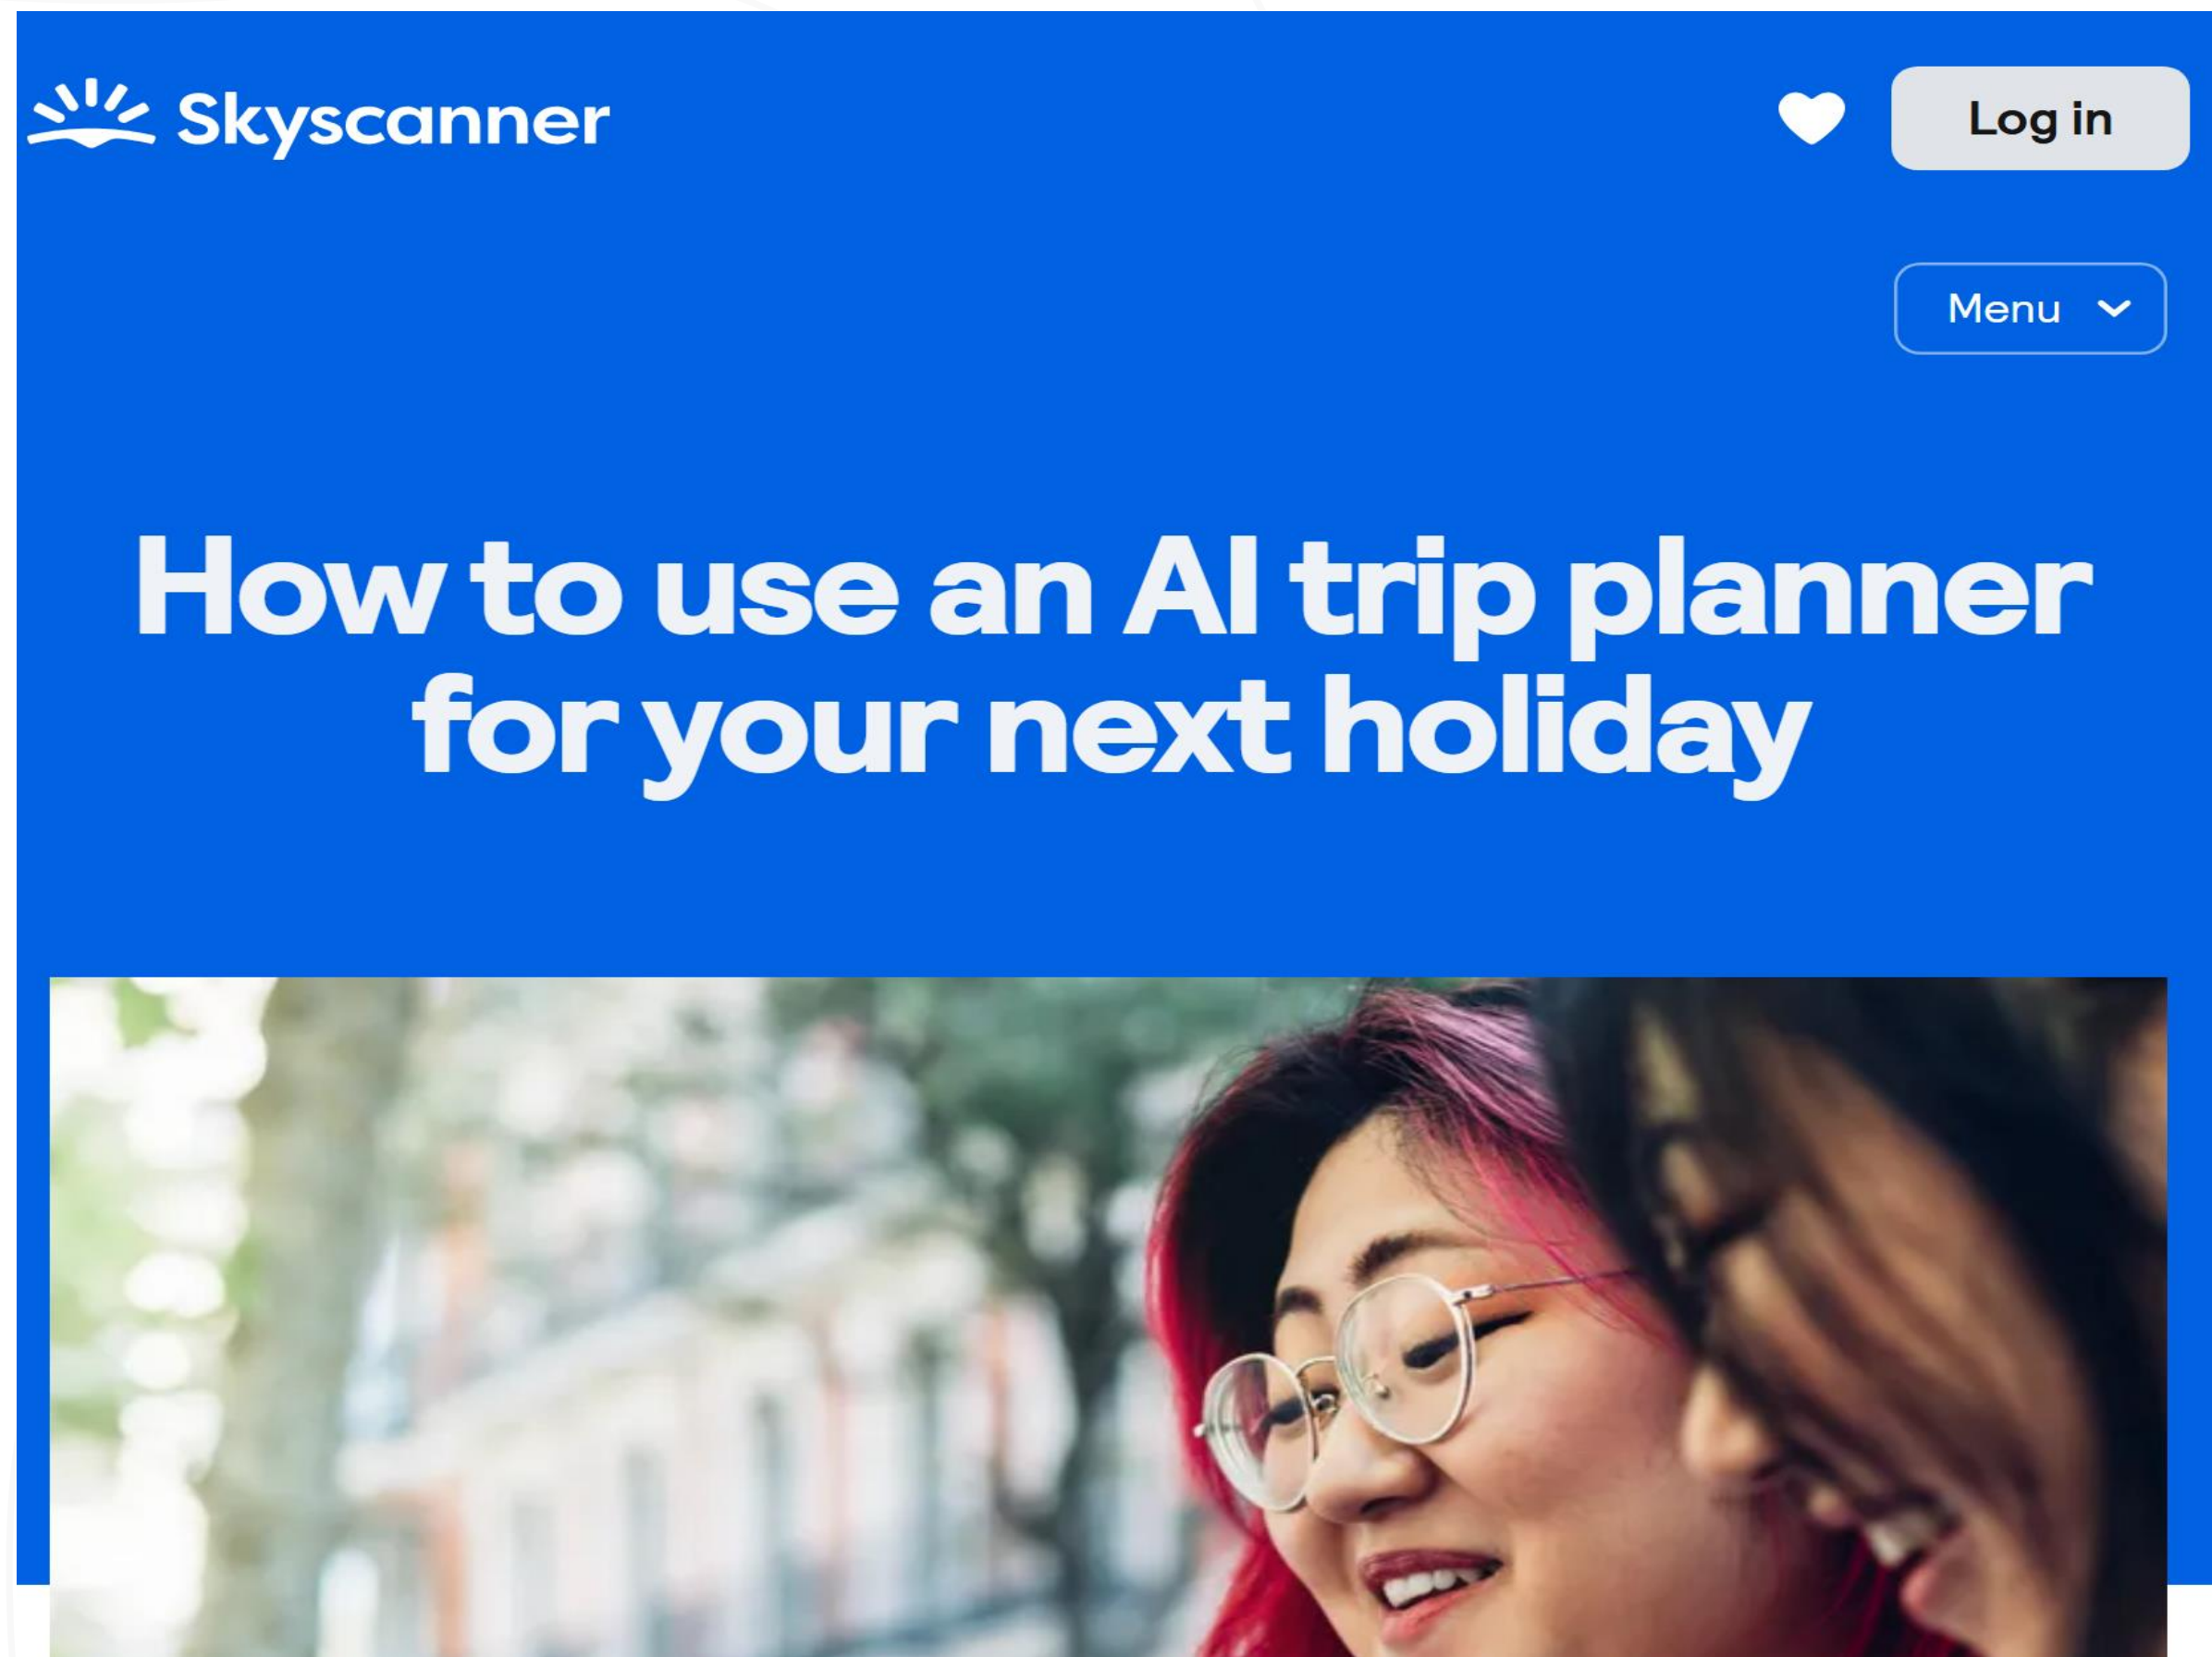

**Data Insights**
- Are you fully leveraging customer data to understand preferences and trends?
- Could AI tools help analyse visitor behavior or market demand?
- Do you want to make data-driven decisions faster

# Check Your Software & Platforms for AI

- Social Media Management

- Website Platform

- Customer Service Platforms

- Email Marketing

- Analytics Tools

- Booking Systems

TED | Tourism Enterprise Development Programme
# Talk to Your Team

- Assess AI knowledge
- Identify AI champions
- Address AI misconceptions
- Brainstorm AI applications
- Discuss AI impact
- Set AI timeline
- Establish AI goals
- Plan AI upskilling
- Consider AI ethics

TED | Tourism Enterprise Development Programme

# AI Integration

- Share hospitality AI examples
- AI job benefits
- Improve customer experiences
- Solve daily problems
- Balance AI and human touch
- Explain data privacy
- Highlight skill opportunities
- Explain AI simply
- Encourage open discussion
- Have an AI Policy

AI Business Integration - Tourism NI

TED | Tourism Enterprise Development Programme

# Free vs. Paid AI Accounts

## Data Privacy
- Free accounts: Often have less robust privacy protections
- Paid accounts: Generally offer enhanced data security measures

## Content Ownership
- Free services: May claim rights to user-generated content
- Paid services: Typically provide clearer ownership terms

## AI Model Training
- Free tools: May use your data to train their models
- Paid options: Often allow opting out of model training

## Usage Rights
- Free AI: May have restrictions on commercial use
- Paid AI: Often includes commercial licensing

TED | Tourism Enterprise Development Programme

# AI Ethics

**Ethical Considerations**
- Transparency in AI-generated content
- Avoiding bias in AI-produced materials
- Balancing AI efficiency with authentic human creativity
- Respecting copyright and intellectual property
- Sustainability impact

**Best Practices**
- Carefully review terms of service for all AI tools
- Implement clear policies on AI usage within your organisation
- Regularly audit AI outputs for quality and ethical compliance
- Invest in paid services for sensitive or high-stakes projects

TED | Tourism Enterprise Development Programme

TED | Tourism Enterprise Development Programme

# What Not To Do

**The Willy Wonka Experience**
- This event, held in February 2024, became a viral sensation for all the wrong reasons:
- Organisers used AI-generated images to advertise an immersive "Willy's Chocolate Experience"
- The event was held in a sparsely decorated warehouse with minimal props
- Families paid £35 per ticket for what was described as a "dystopian nightmare"
- The event was shut down after numerous complaints, with police called to the scene

**This incident highlights several key issues with AI use:**
- **Misleading marketing:** AI-generated images created unrealistic expectations that the event couldn't meet.
- **Lack of human touch:** The event failed to provide the immersive, personal experience that tourists expect.
- **Legal and ethical concerns:** The event's failure raised questions about consumer protection and false.
- **Damage to reputation:** The event went viral, causing significant negative publicity for the organisers and the local tourism industry.
